

Local Rule – Relief from renovation works

Ground staff have renovated several areas around the course, and these have been marked as GUR with Drop Zones identified around the GUR patches.

The Match Committee wishes to clarify that if your ball comes to rest in an area identified as GUR and there is a Drop Zone(s) identified then you must remove your ball from the GUR and you can drop it in the **nearest** Drop Zone which may or may not be closer to the hole in play.

Normal rules apply if you are in a GUR that does not have an identified Drop Zone.

This rule is a modification of the “Local Rule – Relief from renovation works” posted 21st November and will remain in place for competitions until further notice.
